24	KB/4 	External dimensions: width: 440 mm depth: 500 mm height: 685 mm usable area of drawers: width: 360 mm depth: 420 mm height: 135 mm	The four-drawer filing cabinet on wheels is equipped with a pencil case and four drawers. One of the drawers is adapted to store A4-size suspension files. It is made of black sheet metal 0.6-2.0 mm thick. Drawers move on telescopic slides with a blockade preventing falling out. The whole is closed with one central lock. The container has a blockade allowing only one drawer to be removed, which helps to maintain the stability of the container.	1146 zł

25	A4/4 	External dimensions: width: 400 mm depth: 580 mm height: 1093 mm usable area of drawers: width: 320 mm depth: 500 mm height: 240 mm	A four-drawer cabinet adapted to store A-4 format files horizontally. The drawers move on telescopic slides with a lock preventing falling out. The whole is closed with one central lock. Drawer capacity approx. 2,000 files, maximum load: 45 kg. Cabinet weight 40 kg.	1715 zł
26	A4/3 	External dimensions: width: 400 mm depth: 580 mm height: 848 mm usable area of drawers: width: 320 mm depth: 500 mm height: 240 mm	A three-drawer cabinet adapted to store A-4 format files horizontally. The drawers move on telescopic slides with a lock preventing falling out. The whole is closed with one central lock. Drawer capacity approx. 2,000 files, maximum load: 45 kg. Cabinet weight 32 kg.	1371 zł
27	A4/2 	External dimensions: width: 400 mm depth: 580 mm height: 603 mm usable area of drawers: width: 320 mm depth: 500 mm height: 240 mm	A two-drawer cabinet adapted to store A-4 format files horizontally. The drawers move on telescopic slides with a lock preventing falling out. The whole is closed with one central lock. Drawer capacity approx. 2,000 files, maximum load: 45 kg. Cabinet weight 23 kg.	1112 zł
28	A5/5 	External dimensions: width: 540 mm depth: 580 mm height: 1038 mm usable area of drawers: width: 460 mm depth: 500 mm height: 180 mm	A five-drawer cabinet adapted to store A-5 format files. The drawer has a partition that allows two rows of files to be arranged horizontally. The drawers move on telescopic slides with a lock preventing falling out. The whole is closed with one central lock. Drawer capacity approx. 4000 files, maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. The weight of the cabinet is 50 kg.	2080 zł
29	A5/3 	External dimensions: width: 540 mm depth: 580 mm height: 668 mm usable area of drawers: width: 460 mm depth: 500 mm height: 180 mm	A three-drawer cabinet adapted to store A-5 format files. The drawer has a partition that allows two rows of files to be arranged horizontally. The drawers move on telescopic slides with a lock preventing falling out. The whole is closed with one central lock. Drawer capacity approx. 4000 files, maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. The weight of the cabinet is 33 kg.	1397 zł
30	A5/2 	External dimensions: width: 540 mm depth: 580 mm height: 483 mm usable area of drawers: width: 460 mm depth: 500 mm height: 180 mm	A two-drawer cabinet adapted to store A-5 format files. The drawer has a partition that allows two rows of files to be arranged horizontally. The drawers move on telescopic slides with a lock preventing falling out. The whole is closed with one central lock. Drawer capacity approx. 4000 files, maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. The weight of the cabinet is 25 kg.	1137 zł

31	A5/4 	External dimensions: width: 400 mm depth: 580 mm height: 1093 mm usable area of drawers: width: 320 mm depth: 500 mm height: 240 mm	A four-drawer cabinet adapted to store A-5 format files. The drawer has a partition that allows two rows of files to be arranged vertically. The drawers move on telescopic slides with a lock preventing falling out. The whole is closed with one central lock. Drawer capacity approx. 4000 files, maximum drawer load: 45 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. The weight of the cabinet is 41 kg.	1768 zł
32	A6/5 	External dimensions: width: 540 mm depth: 580 mm height: 1038 mm usable area of drawers: width: 460 mm depth: 500 mm height: 180 mm	A five-drawer cabinet adapted to store A-6 format files. The drawer has a partition that allows four rows of files to be arranged vertically. The drawers move on telescopic slides with a lock preventing falling out. The whole is closed with one central lock. Drawer capacity approx. 8000 files, maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. The weight of the cabinet is 53 kg.	2161 zł
33	AT4/4 	External dimensions: width: 421 mm depth: 580 mm height: 1330 mm usable area of drawers: width: 340 mm depth: 500 mm height: 295 mm	A four-drawer cabinet adapted to store A-4 format binders and suspension files horizontally. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Drawer capacity approx. 60 suspension files, maximum drawer load: 45 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. Cabinet weight 49 kg.	1820 zł
34	AT4/2 	External dimensions: width: 421 mm depth: 580 mm height: 720 mm usable area of drawers: width: 340 mm depth: 500 mm height: 295 mm	A two-drawer cabinet adapted to store A-4 format binders and suspension files horizontally. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Drawer capacity approx. 60 suspension files, maximum drawer load: 45 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. Cabinet weight 29 kg.	1181 zł
35	AT4/3 	External dimensions: width: 421 mm depth: 580 mm height: 1025 mm usable area of drawers: width: 338 mm depth: 500 mm height: 295 mm	A three-drawer cabinet adapted to store A-4 format binders and suspension files horizontally. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Drawer capacity approx. 60 suspension files, maximum drawer load: 45 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. Cabinet weight 38 kg.	1458 zł
36	AT4/4-2 	External dimensions: width: 771 mm depth: 580 mm height: 1330 mm usable area of drawers: width: 690 mm depth: 500 mm height: 295 mm	A four-drawer cabinet adapted to store A-4 format binders and suspension files horizontally, in two rows. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. Cabinet weight 70 kg.	2473 zł

37	AT3/3 	External dimensions: width: 540 mm depth: 580 mm height: 1223 mm usable area of drawers: width: 460 mm depth: 500 mm height: 365 mm	A three-drawer cabinet adapted to store A-3 format binders and suspension files horizontally. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Drawer capacity approx. 60 suspension files, maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. Cabinet weight 49 kg.	1820 zł
38	KOP/7 	External dimensions: width: 620 mm depth: 580 mm height: 1758 mm usable area of drawers: width: 540 mm depth: 500 mm height: 225 mm	A seven-drawer cabinet adapted for storing B-5 envelopes horizontally. The drawer has a baffle to arrange two rows of envelopes. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. Cabinet weight 81 kg.	3092 zł
39	KOP/7/1 	External dimensions: width: 360 mm depth: 580 mm height: 1758 mm usable area of drawers: width: 280 mm depth: 500 mm height: 225 mm	A seven-drawer cabinet adapted for storing B-5 envelopes horizontally (one row of envelopes in a drawer). Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 45 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability.	2583 zł
40	KOP/6 	External dimensions: width: 620 mm depth: 580 mm height: 1523 mm usable area of drawers: width: 540 mm depth: 500 mm height: 225 mm	A six-drawer cabinet adapted for storing B-5 envelopes horizontally. The drawer has a baffle to arrange two rows of envelopes. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. Cabinet weight 72 kg.	2685 zł
41	KOP/6/1 	External dimensions: width: 360 mm depth: 580 mm height: 1523 mm usable area of drawers: width: 280 mm depth: 500 mm height: 225 mm	A six-drawer cabinet adapted for storing B-5 envelopes horizontally (one row of envelopes in a drawer). Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 45 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability.	2246 zł
42	KOP/5/1 	External dimensions: width: 360 mm depth: 580 mm height: 1288 mm usable area of drawers: width: 280 mm depth: 500 mm height: 225 mm	A five-drawer cabinet adapted for storing B-5 envelopes horizontally (one row of envelopes in a drawer). Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 45 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability.	1780 zł

43	KOP/5 	External dimensions: width: 620 mm depth: 580 mm height: 1288 mm usable area of drawers: width: 540 mm depth: 500 mm height: 225 mm	A four-drawer cabinet adapted for storing B-5 envelopes horizontally. The drawer has a baffle to arrange two rows of envelopes. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. Cabinet weight 61 kg.	2280 zł
44	KOP/4 	External dimensions: width: 620 mm depth: 580 mm height: 1053 mm usable area of drawers: width: 538 mm depth: 500 mm height: 225 mm	A four-drawer cabinet adapted for storing B-5 envelopes horizontally. The drawer has a baffle to arrange two rows of envelopes. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability.	1875 zł
45	KOP/4/1 	External dimensions: width: 360 mm depth: 580 mm height: 1053 mm usable area of drawers: width: 280 mm depth: 500 mm height: 225 mm	A five-drawer cabinet adapted for storing B-5 envelopes horizontally (one row of envelopes in a drawer). Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 45 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability.	1567 zł
46	KOP/3 	External dimensions: width: 620 mm depth: 580 mm height: 818 mm usable area of drawers: width: 540 mm depth: 500 mm height: 225 mm	A three-drawer cabinet adapted for storing B-5 envelopes horizontally. The drawer has a baffle to arrange two rows of envelopes. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. Cabinet weight 40 kg.	1527 zł
47	KOP/3/1 	External dimensions: width: 360 mm depth: 580 mm height: 818 mm usable area of drawers: width: 280 mm depth: 500 mm height: 225 mm	A three-drawer cabinet adapted for storing B-5 envelopes horizontally (one row of envelopes in a drawer). Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 45 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. The cabinet is equipped with adjustable feet.	1230 zł
48	KOP/2 	External dimensions: width: 620 mm depth: 580 mm height: 583 mm usable area of drawers: width: 540 mm depth: 500 mm height: 225 mm	A two-drawer cabinet adapted for storing B-5 envelopes horizontally. The drawer has a baffle to arrange two rows of envelopes. Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 80 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. Cabinet weight 29 kg. Also used as an extension for a 5-drawer cabinet.	1244 zł

49	KOP/2/1 	External dimensions: width: 360 mm depth: 580 mm height: 583 mm usable area of drawers: width: 280 mm depth: 500 mm height: 225 mm	A two-drawer cabinet adapted for storing B-5 envelopes horizontally (one row of envelopes in a drawer). Drawers slide on telescopic slides with a safety lock that prevents them from falling out. The whole is closed with one central lock. Maximum drawer load: 45 kg. The cabinet has a lock allowing only one drawer to be pulled out, which maintains its stability. The cabinet is equipped with adjustable feet.	893 zł
MEDICAL CABINETS				
50	MD/1 	External dimensions: width: 600 mm depth: 420 mm height: 1800 mm	The medical cabinet has one, pivotable door wing, suspended on pin hinges. It is made of black metal sheet 0.8-1 mm thick. Cabinet doors have a glazing made of tempered glass. They are closed with a cam lock, locking at three points and finished with a handle. It has two swinging door wings suspended on pin hinges. It is equipped with three adjustable shelves every 90 mm, which allows you to store documents in three rows. It is made of black metal sheet 1.0 mm thick. Lockable with a cam lock, locking at three points and finished with a handle and additionally with a key certified lock (class A). The cabinet has two holes in the bottom for attachment to the floor. The doors are equipped with sealing plugs. Lifting capacity: 50 kg. The weight of the cabinet is 48 kg.	2273 zł
116	MONA050/2 	External dimensions: width: 900 mm depth: 420 mm height: 500 mm	The reinforced office cabinet is designed for storing classified documents. It has two swinging door wings suspended on pin hinges. It is equipped with one shelf that masks the bottom of the cabinet, which allows you to store documents in a row. Lockable with a cam lock, locking at three points and finished with a handle and additionally with a key certified lock (class A). The cabinet has two holes in the bottom for attachment to the floor. The doors are equipped with sealing plugs. The weight of the cabinet is 25 kg.	1540 zł
117	MONA192/1 	External dimensions: width: 700 mm depth: 420 mm height: 1920 mm	The reinforced office cabinet is designed for storing classified documents. It has one pair of swinging doors suspended on pin hinges. It is equipped with five adjustable shelves every 90 mm, which allows you to store documents in five rows. It is made of black metal sheet 1.0 mm thick. Lockable with a cam lock, locking at three points and finished with a handle and additionally with a key certified lock (class A). The cabinet has two holes in the bottom for attachment to the floor. The doors are equipped with sealing plugs. Lifting capacity: 50 kg. The weight of the cabinet is 60 kg.	2646 zł

118	MONA150/1 	External dimensions: width: 700 mm depth: 500 mm height: 1500 mm	The reinforced office cabinet is designed for storing classified documents. It has one pair of swinging doors suspended on pin hinges. It is equipped with four adjustable shelves every 90 mm, which allows you to store documents in four rows. Lockable with a cam lock, locking at three points and finished with a handle and additionally with a key certified lock (class A). The cabinet has two holes in the bottom for attachment to the floor. The doors are equipped with sealing plugs. Lifting capacity: 50 kg. The weight of the cabinet is 55 kg.	2412 zł
119	MONA070/1 	External dimensions: width: 500 mm depth: 500 mm height: 700 mm	The reinforced office cabinet is designed for storing classified documents. It has one pair of swinging doors suspended on pin hinges. It is equipped with two adjustable shelves every 90 mm, which allows you to store documents in two rows. Lockable with a cam lock, locking at three points and finished with a handle and additionally with a key certified lock (class A). The cabinet has two holes in the bottom for attachment to the floor. The doors are equipped with sealing plugs. Lifting capacity: 50 kg. The weight of the cabinet is 22 kg.	1533 zł
TWO-MODULE WORKSHOP TABLES				
120	WS2.00 	External dimensions: width: 1355 mm depth: 730 mm height: 845 mm	Two-module workshop table - a base (without additional equipment). The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The table is suitable for mounting shelves and cabinets.	1598 zł
121	WS2.01 	External dimensions: width: 1355 mm depth: 730 mm height: 845 mm	Workshop table with one shelf WP2. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The table is suitable for mounting shelves and cabinets.	1878 zł
122	WS2.02 	External dimensions: width: 1355 mm depth: 730 mm height: 845 mm	Workshop table with two shelves WP2. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The shelves are made of sheet metal with a thickness of 1 mm and they are additionally reinforced with a profile.	2158 zł
123	WS2.03 	External dimensions: width: 1355 mm depth: 730 mm height: 845 mm	Workshop table with one WSZ-A cabinet. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. Table in RAL7035 color, door in RAL6033 color.	2339 zł

124	WS2.04 	External dimensions: width: 1355 mm depth: 730 mm height: 845 mm	Workshop table with one shelf WP1 and cabinet WSZ-B. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The shelf is made of sheet metal with a thickness of 1 mm, additionally reinforced with a profile. Table in RAL7035 color, door and drawer in RAL6033 color.	2718 zł
125	WS2.05 	External dimensions: width: 1355 mm depth: 730 mm height: 845 mm	Workshop table with two WP1 shelves and WSZ-C cabinet. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The shelves are made of sheet metal with a thickness of 1 mm, additionally reinforced with a profile.	3368 zł
126	WS2.06 	External dimensions: width: 1355 mm depth: 730 mm height: 845 mm	Workshop table with WSZ-A and WSZ-B cabinets. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. Table in RAL7035 color, door and drawers in RAL6033 color.	3320 zł
127	WS2.07 	External dimensions: width: 1355 mm depth: 730 mm height: 845 mm	Workshop table with WSZ-C and WSZ-B cabinets. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. Table in RAL7035 color, doors and drawers in RAL6033 color.	4071 zł
128	WS2.08 	External dimensions: width: 1355 mm depth: 730 mm height: 845 mm	Workshop table with WSZ-C and WSZ-D cabinets. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. Table in RAL7035 color, drawers in RAL6033 color.	4834 zł
129	WS2.09 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table + WSZ-A cabinet + W-P1 shelf. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: body - RAL 7035, front - RAL 7035, 6033, 5010, 5005.	2478 zł
130	WS2.10 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table with two shelves W-P1 and cabinet WSZ-A. The table is made of metal profiles made of sheet metal 2 mm thick, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	2617 zł
131	WS2.11 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table with two WSZ-A cabinets. The table is made of metal profiles made of sheet metal, 2 mm thick, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	3080 zł

132	WS2.12 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table with WSZ-A and WSZ-C cabinets. The table is made of metal profiles made of sheet metal with a thickness of 2mm, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	3831 zł
133	WS2.13 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table with WSZ-A and WSZ-D cabinets. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: Body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	4083 zł
134	WS2.14 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table + WSZ-B cabinet. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: Body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	2579 zł
135	WS2.15 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table + 2 shelves WP1 + WSZ-B cabinet. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: Body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	2857 zł
136	WS2.16 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table + WSZ-B cabinet + WSZ-B cabinet. The table is made of metal profiles made of sheet metal, 2 mm thick, equipped with a 35 mm thick plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: Body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	3560 zł
137	WS2.17 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table + WSZ-B cabinet + WSZ-D cabinet. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: Body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	4323 zł
138	WS2.18 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table + WSZ-C cabinet. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: Body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	3090 zł

139	WS2.19 	External dimensions: width: 1355 mm depth: 730 mm height: 840 mm	Workshop table + WSZ-C cabinet + WP1 shelf. THREE-MODULE WORKSHOP TABLES

145	WS3.00 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The table is suitable for mounting shelves and cabinets.	2090 zł
146	WS3.01 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The table is suitable for mounting shelves and cabinets.	2497 zł
147	WS3.02 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The table is suitable for mounting shelves and cabinets.	2904 zł
148	WS3.03 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	Workshop table with one WSZ-A cabinet. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. Table is in color RAL7035, door in RAL6033 color.	2831 zł
149	WS3.04 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	Workshop table with one shelf WP2 and cabinet WSZ-B. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The shelf is made of sheet metal with a thickness of 1 mm, additionally reinforced with a profile. Table is in color RAL7035, door and drawer in RAL6033 color.	3351 zł
150	WS3.05 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	Workshop table with two WP2 shelves and WSZ-C cabinet. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The shelves are made of sheet metal with a thickness of 1 mm, additionally reinforced with a profile. Table is in RAL7035 color, drawers in RAL6033 color.	4142 zł

151	WS3.06 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	Workshop table with WSZ-A and WSZ-B cabinet. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. Table is in RAL7035 color, doors and drawers in RAL6033 color.	3812 zł
152	WS3.07 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	Workshop table with WSZ-C and WSZ-B cabinet, one shelf WP1. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The shelf is made of sheet metal with a thickness of 1 mm, additionally reinforced with a profile. Table is in RAL7035 color, doors and drawers in RAL6033 color.	4702 zł
153	WS3.08 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	Workshop table with WSZ-C and WSZ-D cabinets, and two shelves WP1. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The shelves are made of sheet metal with a thickness of 1 mm, additionally reinforced with a profile. Table is in RAL7035 color, drawers in RAL6033 color.	5604 zł
154	WS3.09 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	Workshop table with WSZ-C, WSZ-B and WSZ-A cabinets. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. Table is in RAL7035 color, doors and drawers in RAL6033 color.	5304 zł
155	WS3.10 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	Workshop table with cabinets WSZ-D, WSZ-C and WSZ-A. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. Table is in RAL7035 color, door and drawers in RAL6033 color.	6067 zł
156	WS3.11 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	Workshop table with WSZ-D, WSZ-C and WSZ-B cabinet. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 40 mm thick plywood table top. It can be equipped with adjustable feet. The table is in RAL7035 color, doors and drawers in RAL6033 color.	6307 zł
157	WS3.12 	External dimensions: width: 2000 mm depth: 730 mm height: 845 mm	Workshop table with WSZ-A cabinet with one shelf WP2. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: Body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	3111 zł

158	WS3.13 	External dimensions: width: 2000 mm depth: 730 mm height: 840 mm	Workshop table with WSZ-A cabinet + two WP2 shelves. The table is made of metal profiles made of sheet metal with a thickness of 2 mm, equipped with a 35 mm plywood table top. The shelves are made of sheet 1 mm, additionally reinforced with a profile. The whole is painted as standard with powder paints (epoxy-polyester) in the following colors: Body - RAL 7035, Front - RAL 7035, 6033, 5010, 5005.	3391 zł
159	WS3.14 	External dimensions: width: 2000 mm depth: 730 mm height: 840 mm	Three-module table + two WSZ-A cabinets.
